- CMON logon control & load balancing
- Spooler & print job management

Audit PRO

Consolidate audit data across many nodes

- Multi-node view
- Multi-source audits: XYGATE, Safeguard . . .
- Single repository for all audit data
- Automatic alerts

Compliance PRO

Develop & monitor security policy compliance

- Multi-node data collection & view
- Best practice analysis
- Anomaly & exception mgmt
- System integrity checks

Encryption PRO

Protect business data: at rest and in transit

- Full crypto library
- Multi-platform support
- ESDK to crypto-enable via APIs
- File encryption
- Static key mgmt
- Session security

XYGATE GUI

NonStop Server Platform Security

Multi-platform Encryption Software

Typical Safeguard Audit

Safeguard Audit → Safeart → Audit Report

XYGATE Merged Audit
Safeguard – Single Node

Safeguard Audit → XYGATE MA

XYGATE MA
- Mover
- Filter
- SQL Audit Table

Filter → Mover → SQL Audit Table

Output:
- Audit Report
- Email Alert
- EMS/SNMP Message
- SYSLOG
- Custom

GUI Monitor

XYGATE Merged Audit
Multi-Audit – Single Node

Safeguard Audit

XYGATE Audit

EMS Audit

ODBC/MX Audit

JDBC/MX Audit

BASE24 Audit

XYGATE MA
